

Part V: Creating and Managing Classes for MCAS

A. Updates for 2026–27

This guide includes the following updates for the 2026–27 school year.

- The Human Read-Aloud accommodation will no longer have a dedicated Human Read-Aloud form displayed in the MCAS Portal, such as “Spring 26 Grade 5 Math Human Read Aloud.” Refer to information on page 1 below.
- Students taking the Spanish/English edition test form no longer need to be placed into a separate class. Refer to additional information on page 2.
- The MCAS Portal now enforces class creation requirements based on student grade level. Grade-level classes can only be created for students in grades 3–8, while course-level classes can only be created for high school grade levels and courses. Refer to information on page 4.
- The class upload feature now has an increased maximum character limit of 100 characters for class names.

B. Introduction

A “class” in the MCAS Portal is a group of students in the same grade or course who will take a subject area test in the same location at the same time. Students must be assigned to a class before scheduling the test in the MCAS Portal. In the MCAS Portal there are two types of classes: course-level classes and grade-level classes. **For grades 3–8 tests, only grade-level classes can be created. For high school tests, only course-level classes can be created.**

Classes can be created during the initial student registration window, or anytime leading up to and during the testing window; DESE recommends creating and assigning classes two weeks prior to testing. A student must be assigned to a class prior to testing.

Please note the following important information **before** creating classes:

- **All grades 3–8 students in a class must be in the same grade level.**
- **Schools should assign each student to only one class per subject area test.** The MCAS Portal allows users to add students to multiple classes per subject, but this should not be done in most cases.
- There is a **limit of 250 students** per class.
 - When creating a testing plan, schools should assign students to testing rooms in a way that adheres to all of the policies and procedures outlined in the *Principal’s Administration Manual*.
- **Students with the following accommodations need to be placed into separate classes:**
 - Students with the Human Read-Aloud accommodation should be placed into a class of no more than 5 students, all of whom are assigned the Human Read-Aloud accommodation. **New for 2026–27:** The Human Read-Aloud accommodation will no longer have a dedicated Human Read-Aloud form displayed in the MCAS Portal, such as “Spring 26 Grade 5 Math Human Read Aloud.” Students in the same class who have been

assigned the Human Read-Aloud accommodation will receive the same test form.

- Students with the Human Signer accommodation should be placed into a class of no more than 5 students, all of whom are assigned the Human Signer accommodation.

New for 2026–27, students taking the Spanish/English edition test form no longer need to be placed into a separate class. Students who have been assigned the Spanish/English (EL7) accommodation will automatically be assigned the Spanish/English edition test form when the test is scheduled.

1. Class Naming Conventions

When creating classes, DESE recommends that schools use a naming convention that will help test administrators quickly and easily find the test they are administering. It is suggested that schools create class names that include the following information:

- test code (refer to information on test codes on page 18 of [Part III: Student Registration](#))
- test administrator last name
- testing location

An example of a class name would be MAT07–SMITH 205, in which

- MAT07 is the test code
- SMITH 205 is the test administrator name and testing location

The content area, grade, and school code will be added to the class name when a class is created in the MCAS Portal user interface for a grade-level class, and the content area and school code will be added for a course-level class. Classes created manually and classes created through the Class Upload file will have the content area, grade (if applicable), and school code automatically added to the class name. These class names will follow the naming conventions:

Grade Level Class: content area-grade-class name-school code

(e.g., Mathematics-07-MAT07 SMITH 205-88888888)

Course Level Class: content area-class name-school code

(e.g., Mathematics-MAT10 SMITH 205-88888888)

Note that when creating classes through a Student Registration file, additional parts of the class name will be auto-populated. Refer to information in Part III: Student Registration and in section B 2 below.

It is recommended that class names for students with the following accommodations: Human Read-Aloud and Human Signer, include the accommodation (e.g., MAT07 HRA SMITH 208 88881010).

2. Classes Page in the MCAS Portal

The **Classes** page in the MCAS Portal, available to all user roles except Reports Access Only, manages the classes, or groups of students, for testing. Select **Classes** on the top menu bar of the Administration homepage to access classes.

In Table 1 below are descriptions of the features that are available on the Classes page. The numbered icons listed in Table 1 are shown in the screenshot that follows to indicate the location of the feature.

Table 1. Classes

Icons	Description
	Filter the Classes table by selecting an organization from the Organization drop-down menu.
	Filter the Classes table by selecting a subject from the Subject drop-down menu.
	Select the Grade Level tab for grades 3–8 tests. Select the Course Level tab for high school tests.
	Select the green Create Grade Level Class button to manually create a new grade-level class. Select the green Create Course Level Class button to manually create a new course-level class.
	Click Upload Classes to create multiple classes using the Class Upload .CSV file.
	Sort columns by clicking on a column heading. Click the search icon  next to the column heading and enter the search criteria.
	To view or modify an existing class, locate the class in the table and click View , Edit , or Delete .

Mathematics Classes in Cyber Valley Sch1-001

C. Creating Classes in the MCAS Portal

There are three ways to create classes in the MCAS Portal, depending on how many classes you are creating:

Options for Creating Classes	When would you use this option?
Option 1: Manually create classes one at a time in the MCAS Portal user interface.	Recommended when creating four or fewer classes or when working with a small number of students
Option 2: Export the Student Registration file, enter class names in column K of the file, and reupload the file.	Recommended when creating five or more classes or when working with a large number of students
Option 3: Create and upload a Class Upload file.	Recommended when creating five or more classes or when working with a large number of students

New for 2026–27: The MCAS Portal now enforces class creation requirements based on student grade level. Grade-level classes can only be created for students in grades 3–8, while course-level classes can only be created for high school grade levels and courses. When filtering students, only those whose grade level aligns with the selected class or course will be available for selection.

DESE recommends creating classes approximately two weeks prior to test administration to minimize changes needed.

1. Option 1: Manually Create a Class in the MCAS Portal User Interface

When creating four or fewer classes or when working with a small number of students, it is recommended to manually create classes in the MCAS Portal user interface. To manually create a class in the MCAS Portal, follow the steps below:

1. On the Classes page, select an **organization** from the organization drop-down list, and then select a **subject** from the subject drop-down list.

Mathematics Classes in Cyber Valley Sch1-001

Cyber Valley Sch1-001 (Cyber Valley) Mathematics

2. Select the **Grade Level** tab for **grades 3–8 tests**. The grade-level classes will be shown on the page.

Course Level Grade Level

Select the **Course Level** tab for **high school tests**. The course-level classes will be shown on the page.

Course Level Grade Level

3. Select **Create Grade Level Class** to create a new grade-level class.

Create Grade Level Class

Select **Create Course Level Class** to create a new course-level class.

Create Course Level Class

4. Type the name of the class in the **Class Name** field. Refer to the Class Naming Conventions in section B 1 on page 2 for additional information.
5. Select a **grade** or **course** from the drop-down list.

Add New Mathematics Class in Cyber Valley Sch1-001	Add New Mathematics Class in Cyber Valley Sch1-001
<i>Class Information</i> Class Name: MAT05 SMITH 102 88810 Grade: 05	<i>Class Information</i> Class Name: MAT10 SMITH 102 881012 Course: Mathematics

6. By default, the **Show only students that are not assigned to a class** checkbox is checked. When this box is checked, students who are not assigned to a class for the selected subject area and grade are shown. **Schools should keep this checkbox checked when assigning students to classes so that students are not mistakenly assigned to multiple classes for the same subject.**

Deselecting the **Show only students that are not assigned to a class** checkbox shows all students in the school for the selected grade, including those already assigned to a class in the subject area.

- Schools may want to deselect this checkbox if they need to assign a student to a new class in the case of a student that was initially assigned to a class with an incorrect accommodation, and the student has started testing.

Note: Even though the MCAS Portal allows students to be added to multiple classes per subject, schools should generally assign each student to one class per subject area.

7. Add students to a class by selecting one or more students from the list on the left and selecting **Add**. If you need to remove students from the class list, select one or more students from the list on the right and select **Remove**.

To filter the list of students:

- Select a class in the **Search for Students** drop-down list to view students in the class selected. They will be shown in the list on the left and can be added to the new class being created.
- To search for a specific student in the school, begin typing a student's SASID, first name, or last name in the **Showing students in:** field and the students list updates as you type.

2. Option 2: Create Classes Using the Student Registration File

DESE recommends leaving column K of the Student Registration file (class name) blank during the initial Student Registration file upload. To create classes using the Student Registration file, schools can export the file approximately two weeks prior to testing, fill in the class names in column K, and reimport the file.

For step-by-step instructions, refer to section C 1 of Part III: Student Registration Option 1: Student Registration Export and Upload.

When creating classes through the Student Registration file upload, it is recommended to include the test administrator name and testing location in the class name (e.g., SMITH 215). Other fields will automatically be added to the class name when using this option.

The class name entered in column K of the Student Registration file automatically creates a class with the following naming format in the system:

Grade Level Class: Test Code-Content Area-Grade-Class Name-School Code
(e.g., MAT07-Math-07-SMITH 205-88881010)

Course Level Class: Test Code-Content Area-Class Name-School Code
(e.g., MAT10-Math-SMITH 205-88881010)

3. Option 3: Create Classes via File Upload

The Upload Classes feature allows you to create a new Class Upload file that can include multiple classes for multiple grades and subjects using one .CSV file. Classes can be uploaded with a Class Upload file at the district level by the district test coordinator, or at the school level by school and district test coordinators.

Schools that choose this option will take the following steps:

1. Download the Class Upload file template from the MCAS Portal.
2. Populate the fields in the template using the permitted values as outlined in the Class Data Definitions Info in the MCAS Portal and save the file locally.
3. Upload the saved file to the MCAS Portal.

To create classes via the Upload Classes feature, follow the steps below:

1. Download the Class Upload file template from the MCAS Portal:

- a. On the Classes page, select a school or district from the organization drop-down menu.

If a district is selected, click **Upload Classes for District** for a district-level class upload.

The screenshot shows a web interface titled "Mathematics Classes in Cyber Valley". Below the title, there are two dropdown menus. The first dropdown menu is labeled "Cyber Valley" and has a small downward arrow icon. The second dropdown menu is labeled "Mathematics" and also has a small downward arrow icon. To the right of these dropdown menus is a green button with the text "Upload Classes for District".

If a school is selected, select **Upload Classes** for a school-level class upload.

Class Data Definitions Information:

- **ClassName:** Enter a class name. Refer to the Class Naming Conventions in section A 1 for additional information.
- **ContentArea:** Enter the content area for the class: Mathematics, ELA, Science, or Civics.

- **ClassType:** Enter “grade” for grade-level classes that will be used for grades 3–8 tests, or “course” for course-level classes that will be used for high school tests.
 - **Grade/Course:** Enter the grade or course name, as seen in the screenshot above. Leading zeros will be required for grades 3–8.
 - **SchoolCode:** Only applicable to district-level class uploads. The School Code column will require the format of “district code-school code”. For example, if the district code is 00999999 and the school code is 00999987, the School Code column should be entered as 00999999-00999987.
 - **State Student ID:** Enter the students’ SASID in the State Student ID Number column in the template. The SASID must match the student record in SIMS.
- b. Fill out the template using the data definitions information provided and then **save** the file in .CSV format. Note that there is a **limit of 1000 records** for each upload file.

The following is an example of a Class Upload file at the school level:

	A	B	C	D	E	F
1	ClassName	ContentArea	ClassType	Grade/CourseCode	State Student ID Number	
2	MAT05-DEMOTA-101-00100100	Mathematics	grade	05	10xxxxxxxx

12	MAT05-DEMOTA-101-00100100	Mathematics	grade	05	00999999-00100100	10xxxxxxxx	
13	MAT05-DEMOTA-101-00100100	Mathematics	grade	05	00999999-00100100	10xxxxxxxx	
14	MAT05-DEMOTA-101-00100100	Mathematics	grade	05	00999999-00100100	10xxxxxxxx	
15	MAT05-DEMOTA-101-00100100	Mathematics	grade	05	00999999-00100100	10xxxxxxxx	
16	ELA05-DEMOTA-202-00100100	ELA	grade	05	00999999-00100100	10xxxxxxxx	
17	ELA05-DEMOTA-202-00100100	ELA	grade	05	00999999-00100100	10xxxxxxxx	
18	ELA05-DEMOTA-202-00100100	ELA	grade	05	00999999-00100100	10xxxxxxxx	
19	ELA05-DEMOTA-202-00100100	ELA	grade	05	00999999-00100100	10xxxxxxxx	

New for 2026–27, the class upload feature now has an increased maximum character limit of 100 characters for class names.

3. Upload the saved file to the MCAS Portal.

- On the Upload Classes page in the MCAS Portal, click **Choose File** and select the .CSV file you saved locally and then click **Upload**.

- After the upload has been processed, the following information will appear on the screen:
 - A green success message at the top of the page letting you know that your file has been uploaded and processed. The success message may appear even if the file contains errors. Review the messages described below to identify records that require attention.
 - Number of students processed successfully
 - Number of duplicate records present in the file
 - Number of error records present in the file
 - A table showing the records that were in the file, the type of error, and the number of records is provided. Records with errors will not be imported into the portal.

- ii. Click **Download records with errors** to download a file of the errors found.

Table 2. Class Upload File Errors

Error	How to Resolve the Error
The uploaded file is not in the expected format. Please download and use the template provided via the Download Template link.	Verify that the file is in .CSV format, and make sure the headers in the file match the template.
Could not find SASID in the given organization	Correct the student's SASID in the .CSV file.
Length of class name cannot exceed 100 characters	Update the Class name(s) in the .CSV file to a name with 100 characters or less.
Class name is missing	Add the Class name(s) to the .CSV file.
Class name cannot contain a ']' character	Remove the ']' character from the class name.
Grade does not exist	Correct the Grade to a permitted grade number. (03,04, 05, 06, 07, 08)

Error	How to Resolve the Error
Grade is missing	Add a valid Grade.
Course does not exist	Correct the course to a permitted value.
Course is missing	Add a course.
Course does not belong to subject	Correct the course to a permitted value.
Invalid ClassType	Correct the ClassType to grade or course .
Invalid ContentArea	Correct the ContentArea to a permitted value. Content areas must match the Class Data Definitions exactly.
Invalid Grade/Course	Correct the grade or course to a permitted value. For grades 3–8, leading zeros are required.
Student grade does not match with class grade	Verify that the student's grade matches the grade of the class being created.

D. Managing Classes

1. View Classes

Classes are viewed on the **Classes** page in the Administration component of the MCAS Portal. To view classes for your organization, follow the steps below:

1. On the MCAS Portal homepage, select **Administration**.
2. On the Administration homepage, select **Classes** from the top menu bar.

3. Select the **Grade Level** tab for grades 3–8 tests. The grade-level classes will be shown on the page.

Select the **Course Level** tab for high school tests. The course-level classes will be shown on the page.

Course Level

Grade Level

4. Select **View** on the classes table for the class.

Edit Class

Export Roster

Students in this class:

Last Name	First Name	Middle Initial	State Student ID	
Student	Demo		9999910020	Edit
Student	Demo		9999910021	Edit
Student	Demo		9999910022	Edit
Student	Demo		9999910023	Edit
Student	Demo		9999910024	Edit
Student	Demo		9999910025	Edit
Student	Demo		9999910026	Edit
Student	Demo		9999910028	Edit

The Class Details page lists all the students in the class. On this page, school and district test coordinators and technology coordinators have the option to:

- Edit the class by selecting **Edit Class**.

Edit Class

- Export a class roster in .CSV format by selecting **Export Roster**.

Export Roster

- Edit a student's demographic information, accommodations, and classes by locating the student in the class table and selecting **Edit** in the student's row.

Edit

2. Edit a Class

To edit classes for your organization, follow the steps below:

1. On the MCAS Portal homepage, select **Administration**.
2. On the Administration homepage, select **Classes** from the top menu bar.

3. Select the **Grade Level** tab for grades 3–8 tests. The grade-level classes will be shown on the page.

Select the **Course Level** tab for high school tests. The course-level classes will be shown on the page.

4. Select **Edit** on the classes table for the class or by selecting **Edit Class** from the Class Details page (shown above in the View Classes section).

The Edit Class page will be shown. On this page you have the option to:

- a. Edit the name of the class in the **Class Name** field.
- b. The **Show only students that are not assigned to a class** checkbox is checked by default. **Schools should keep this checkbox checked when assigning students to classes so that students are not mistakenly assigned to multiple classes for the same subject.**
 - If a school needs to move students from one class to another, select a class in the **Search for Students** drop-down list to view students in a class. They will be shown in the list on the left and can be added to the class on the right.
- c. To search for a specific student in the school, begin typing a student's SASID, first name, or last name in the **Showing students in:** field, and the students list will dynamically update with the student records that match the text entered.
- d. Sort the list of students by last name, first name, or SASID using the **Sort By** drop-down.

- e. Add students to the class by selecting one or more students from the list on the left and clicking the **Add** button.
- f. Remove students from the class list by selecting one or more students from the list on the right and clicking the **Remove** button.

Note: To select multiple students at once,

- hold Ctrl and select student names one at a time from the list, or
- select a student, then hold Shift and select a student further down or up on the list to select groups of students from the student list.

Save **Cancel**

5. If any edits are made, click **Save** to save the edited class or click **Cancel** to discard any changes and exit the Edit Class page.

3. Add a Student to an Existing Class on the Students Page

After a class has been created, school and district test coordinators and technology coordinators can also add a student directly to an existing class from the Students page.

Note that classes must have been created previously in order to add a student to a class using the Edit feature on the Students page.

To add the student to an existing class, follow the steps below:

1. On the MCAS Portal homepage, select **Administration**.
2. On the Administration homepage, select **Students** from the top menu bar.

3. From the Students page, locate the student in the students table and select **Edit** in the row for the student.

4. On the Edit Student page, click the **Classes** tab.

5. Select **Grade Level** for grades 3–8 students and then select the **Subject** for the class you would like the student to be added to. A list of available classes will be displayed.

Search: X

Class Name

MAT05 SMITH 102 8881010-(Grade -05)

MAT05-Teacher 112-1666-001-(Grade -05)

Save Cancel

Select **Course Level** for high school students and then select the **Subject** for the class you would like the student to be added to. A list of available classes will be displayed.

The screenshot shows the 'Classes' tab in the MCAS Portal. At the top, there are three tabs: 'Student Information', 'Accommodations', and 'Classes'. Below the tabs is a large grey button that says 'Please select class(es)'. Underneath this button, there are two dropdown menus: 'Course Level' and 'Science'. These two dropdowns are highlighted with a red rectangular box. Below the dropdowns is a search bar with the text 'Search:' and a clear button (X). Below the search bar, there is a section titled 'Class Name' which contains a list of class names: 'Science-BIOFEB Eastman 119-I888-009' and 'Science-BIOFEB Jones 107-I888-009'.

Note: Students who were manually added to classes in the MCAS Portal user interface or through the Class Upload file will have the class name highlighted on this screen in green. Classes created through the Student Registration file will not appear highlighted on this screen; those classes can be viewed by selecting the **View Classes** link on the Students page.

6. Select the class, which will be highlighted in green once selected. Then, click **Save** to add the student to the class.

The screenshot shows the 'Classes' tab in the MCAS Portal. At the top, there are three tabs: 'Student Information', 'Accommodations', and 'Classes'. Below the tabs is a large grey button that says '1 selected class (1 selected grade level class for Mathematics)'. Underneath this button, there are two dropdown menus: 'Grade Level' and 'Mathematics'. Below the dropdowns is a search bar with the text 'Search:' and a clear button (X). Below the search bar, there is a section titled 'Class Name' which contains a list of class names: 'MAT05 SMITH 102 8881010-(Grade -05)' and 'MAT05-Teacher 112-I666-001-(Grade -05)'. The first class name is highlighted with a green background and a red rectangular box. At the bottom of the screen, there are two buttons: 'Save' and 'Cancel'. The 'Save' button is highlighted with a red rectangular box.

The same student can also be added to additional classes in other subjects on this same screen. After highlighting the first class, change the **Subject** in the drop-down menu to select additional classes you would like to add the student to. The confirmation box at the top will let you know how many classes are selected for the student. When all the new classes have been selected, click **Save**.

4. Delete Classes

Classes can be deleted if none of the students have started a scheduled test in that class. To delete classes for your organization, follow the steps below:

1. On the MCAS Portal homepage, select **Administration**.
2. On the Administration homepage, select **Classes** from the top menu bar.

Enrollment Transfer **Classes** Test Scheduling

3. Select the **Grade Level** tab for grades 3–8 tests. The grade-level classes will be shown on the page.

Course Level **Grade Level**

Select the **Course Level** tab for high school tests. The course-level classes will be shown on the page.

A screenshot of a web form. At the top, there are two buttons: 'Course Level' and 'Grade Level'. The 'Course Level' button is highlighted with a red rectangular box. Below these buttons is a large, empty rectangular area.

4. To delete a class, select **Delete** on the classes table for the class.

A screenshot of a button bar. It contains three links: 'View', 'Edit', and 'Delete', separated by vertical bars. The 'Delete' link is highlighted with a red rectangular box.

A confirmation message will appear. Click **Confirm** to delete the class or **Cancel** to keep it.

A screenshot of a confirmation dialog box. The text inside reads: "Are you sure you want to delete this class: Science-BIOFEB Jones 107-1888-009?". At the bottom right, there are two buttons: 'Confirm' (in blue) and 'Cancel' (in grey).

Note: Deleting a class removes the class and any scheduled tests associated with it from the MCAS Portal. Students assigned to the deleted class will no longer be associated with that class. If the class is deleted in error, create a new class and add students as needed.
